

MyoKardia to Present at 2019 Cantor Global Healthcare Conference

September 26, 2019

SOUTH SAN FRANCISCO, Calif., Sept. 26, 2019 (GLOBE NEWSWIRE) -- MyoKardia, Inc. (Nasdaq: MYOK), today announced that Taylor Harris, Chief Financial Officer, will participate in a fireside chat at the 2019 Cantor Global Healthcare Conference on Thursday, October 3, 2019, at 4:10 p.m. ET in New York, NY.

A webcast of the presentation will be available by visiting the Investors section of MyoKardia's website at <http://investors.myokardia.com>. A replay of the webcast will be available on the MyoKardia website for 90 days following the conference.

About MyoKardia

MyoKardia is a clinical-stage biopharmaceutical company pioneering a precision medicine approach to discover, develop and commercialize targeted therapies for the treatment of serious cardiovascular diseases. MyoKardia's initial focus is on the development of small molecule therapeutics aimed at the muscle proteins of the heart that modulate cardiac muscle contraction and underlying diseases of systolic and diastolic dysfunction. MyoKardia applies a precision medicine approach to develop its therapeutic candidates for patient populations with shared characteristics, such as causal genetic mutations or disease subtypes. MyoKardia has discovered a pipeline of product candidates directed at diseases driven by excessive contraction, impaired relaxation, or insufficient contraction. Among its discoveries are three clinical-stage therapeutics: mavacamten (formerly 461) in Phase 3 and Phase 2 clinical trials for hypertrophic cardiomyopathies (HCM); MYK-491 in Phase 2 for patients with stable heart failure; and MYK-224, in Phase 1 development for HCM.

MyoKardia's mission is to change the world for people with serious cardiovascular disease through bold and innovative science.
